[Available for Part-Time / Full-Time/Freelance / Remote Opportunities]

OBJECTIVE

Computer Science and Engineering student (AVS Engineering College, CGPA 8.0) seeking a part-time or freelance role in web development, Photography, UI/UX design, or content creation. I bring hands-on internship experience in Data Science and AI, strong design skills (Canva, Adobe Suite, Framer), and a proven ability to deliver creative digital solutions while managing academic commitments.

WORK AVAILABILITY & PREFERENCES

Availability

- 15–20 hours/week (flexible around class schedule)
- Available evenings, weekends, and college holidays
- Open to remote / hybrid work arrangements

Preferred Roles

- Freelance Web Developer (HTML/CSS/JS)
- Part-Time Graphic / UI Designer
- Junior Data Analyst / Data Entry
- Social Media Content Creator / Poster Designer
- Photography & Video Editing Assistant

EDUCATION

B.E. in Computer Science and Engineering | AVS Engineering College

2024 – 2028

- CGPA: 8.0 (Currently 2nd Year)
- Relevant coursework: Data Structures, Web Technologies, AI & Machine Learning, DBMS

INTERNSHIP EXPERIENCE

Data Science Intern | Industrial Design & Animations

Jan 2026 – Mar 2026

- Cleaned and preprocessed large-scale sales datasets using Python (Pandas, NumPy), achieving high data accuracy for stakeholder reports.
- Identified key market trends and consumer behaviour patterns through exploratory data analysis.
- Designed visualisations and reports that supported data-driven business decision-making.

Emerging Technologies Intern (AI & Cloud) | Edunet Foundation & IBM SkillsBuild

Jul 2025 – Aug 2025

- Designed and deployed AI-driven conversational agents using IBM Watson, improving automated user interactions.
- Hosted and managed AI services on IBM Cloud infrastructure, ensuring high availability and seamless integration.
- Developed and tested NLP-based models to enhance information retrieval and streamline digital workflows.

PROJECTS

Personal Portfolio Website | HTML5 · CSS3 · JavaScript · Framer

- Built a fully responsive, cross-browser-compatible portfolio with optimised loading speeds.
- Integrated a custom photography gallery and project showcase, resulting in a 20% increase in portfolio views.

- Used Framer for high-fidelity prototyping and interactive UI components.

College Poster Design Series | *Canva · Adobe Photoshop*

- Designed 15+ creative posters for college symposiums and academic events, reaching an audience of 500+ students and faculty.
- Translated complex technical themes into visually compelling graphics, establishing a consistent visual brand identity for departmental events.

Photography & Cinematic Editing | *Adobe Lightroom · Premiere Pro*

- Produced high-quality cinematic photo edits and visual storytelling content for digital platforms.
- Applied advanced colour grading and composition techniques; managed end-to-end production from concept to final delivery.

SKILLS

Web Development: HTML5, CSS3, JavaScript, GitHub, Framer, Responsive Design, Deployment
UI/UX & Design: Canva, Adobe Photoshop, Adobe Lightroom, Premiere Pro, Figma (beginner), Graphic Design, Prototyping
Data & AI: Python, Pandas, NumPy, Data Visualisation, IBM Watson, IBM Cloud
Creative: Photography, Cinematic Video Editing, Content Creation, Colour Grading, Edditing
Soft Skills: Problem Solving, Leadership Management, Team Collaboration, Time Management, Communication
Languages: Tamil (Native), English (Professional), Kannada (Conversational)
